

NUPRIME

beyond
ordinary

COMPANY BACKGROUND

In 2014, NuForce's cofounder, Jason Lim, with backing from the OEM factory, bought the assets of NuForce's high-end division, and formed NuPrime Audio, Inc. Under the leadership of Jason Lim, NuPrime has assembled a design team comprised of highly talented engineers. NuPrime has since introduced a series of superbly engineered yet affordable audio components that has won numerous accolades over the past few years. In 2015, for the first time in high end audio history, NuPrime has received four Product Of The Year awards from two prestigious magazines The Absolute Sound and SoundStage! Network.

REACHING NEW HEIGHTS

NuPrime remains to be one of the few audio companies that is still pushing the boundaries with in house Research and Development, culminating with the NuPrime Evo One in 2018. Evo One is the first Class-D amp that achieved 1M Ohm input impedance and 700kHz switching frequency, with sonic performance unmatched by any Class-D amps, and surpassing most of the world class solid state amps. Besides having better performance than competing off-the-shelf solutions, NuPrime is able to tailor the sound of our amplifiers with our Hybrid Class D technology. Our products encompass design philosophies only seen at much higher price point, which is in-line with our pursuit of creating high-end audio components at affordable prices.

NuPrime aims to achieve yet greater heights of excellence and value in high-performance audio.

WHAT IS HIGH-END AUDIO?

Robert Harley, Editor-In-Chief of The Absolute Sound, states that “High-End Audio is the quest to re-create in the listener’s home the musical message of the composer or performer with the maximum realism, emotion, and intensity”. Historically, skilled audio professionals have created high-end audio components by carefully crafting circuits and taking great care in parts selection. They achieve great sound through elaborate, time-consuming process, resulting in expensive and often opulent products.

NuPrime believes that High-End does not equate to high prices. For every product, the design team makes great efforts to optimize the circuitry and components to meet the price targets. One thing that is never compromised is attaining the NuPrime sound. All NuPrime products deliver a vast soundstage, lightning-fast dynamics, ultra-low distortion, and noise, with the music emerging from a pristine background. We then tailor the products' sonic characteristics to address differences in musical preferences, from the smooth and luscious sounds of the DAC-9 and STA-9 to the studio like DAC-10 and ST-10, or the ultra-dynamic MCX. The Evolution and AMG series introduced further technological innovation and design unheard of even in products several times their price, with a performance that provides more than a challenge to their upwardly priced competition. We pride ourselves in achieving these goals for every product and believe this makes NuPrime special.

We are strongly encouraged by the feedback from our customers that NuPrime audio components represent exceptional value. Customers and reviewers alike are using our products in systems where the partnering equipment costs several times more. NuPrime is producing affordable audio that sounds as good as the best. We have expanded our portfolio of products beyond amplifiers and DACs to sources such as CD player and transport, music server, and streamer. We have also stepped into the world of audio accessories such as network switch and power filter in our bid to bring out the best of an audio system's performance.

NuPrime is proud to be recognized with 7 Editor's Choice awards from The Absolute Sound in 2020 and rightfully excited with several new products launching this year!

MSRP: €3,995 | COLORS: SILVER, BLACK
DIMENSIONS: 65 × 430 × 381 mm (H × W × D)

MSRP: €3,500 | COLORS: SILVER, BLACK
DIMENSIONS: 55 × 430 × 315 mm (H × W × D)

MSRP: €1,095 | COLORS: SILVER, BLACK
DIMENSIONS: 55 × 235 × 281 mm (H × W × D)

MSRP: €2,495 | COLORS: SILVER, BLACK
DIMENSIONS: 57 × 430 × 375 mm (H × W × D)

MSRP: DAC-10H: €1,795 | DAC-10: €1,495
COLORS: SILVER, BLACK
DIMENSIONS: 59 × 215 × 383 mm (H × W × D)

MSRP: ST-10: €1,595 | ST-10M: €1,595
COLORS: SILVER, BLACK
DIMENSIONS: 59 × 215 × 383 mm (H × W × D)

MSRP: €745 | COLORS: BLACK, SILVER
DIMENSIONS: 55 × 235 × 281 mm (H × W × D)

Evolution One

The Evolution One is the embodiment of all the latest and best technology NuPrime has developed. It has been carefully crafted to achieve a performance that surpasses the Reference range performance in all areas, notably a 700kHz switching frequency and 1M Ohm input impedance.

Rated Power: 240W @ 8 Ohms, 330W @ 4 Ohms
Peak Power: 285W @ 8 Ohms, 390W @ 4 Ohms

Evolution DAC

Evolution DAC has been redesigned from the ground up using C-Core transformers and AC filter, in addition to the DAC circuit. It utilizes one of the world's highest performing 32-bit audio DACs, the ES9038PRO, and NuPrime PSRC IC chip to not only decode but also provide sampling rate up/down conversion from PCM 44.1kHz to PCM 768kHz and DSD64 to DSD512.

NuPrime IDA-8

NuPrime IDA-8 consists of an ultra-low-noise integrated amplifier and digital-to-analog converter that decodes USB PCM 384 and DSD 256 with the convenience of wireless audio in a small, handsomely designed home stereo component. NuPrime's new Class A+D hybrid amplification technologies deliver the substance and warmth of Class A amplification and the efficiency and speed of Class D technology in a milieu of un-measurable noise. The IDA-8's spacious, transparent, dynamic and luxuriously textured soundstage has to be heard to be believed.

NuPrime IDA-16

The NuPrime IDA-16 Integrated Amplifier is a single-chassis, integrated stereo amplifier with a DAC capable of supporting DSD native playback (DSD64, DSD128 and DSD256). It offers five digital inputs, one stereo input and 200 W × 2 power amplifier for complete system flexibility and ability to drive just about any speakers on the market.

NuPrime DAC-10H & DAC-10*

The NuPrime DAC-10H is a Digital Headphone Amplifier offering PCM 384K & DSD256 decoding. The DAC-10H's balanced headphone amplifier is capable of driving headphones in balanced and single-ended configuration and can be used with up to two dynamic headphones. With five digital & two analog stereo inputs, the DAC-10H is a full-featured DAC and preamp more than suited for any high-end system.

**version without the headphone amplifier*

NuPrime ST-10 & ST-10M

The ST-10 amplifier is for listeners who require a reference-class amplifier at a somewhat lesser power rating of 2 × 150 W (8 Ohm). The ST-10M Reference Class Mono Amplifier (230W @ 8 Ohm) builds upon the ST-10 and brings it to the next level with deeper bass, greater immediacy, more power.

NuPrime STA-9

The NuPrime STA-9, a 2 × 120 W Class A+D stereo amp bridgeable into a 290 W mono amp, is designed with enhanced even-order harmonic circuitry that mimics the most attractive features of tubed-amp sound without tubes' drawbacks and limitations.

MSRP: DAC-9: €845 | DAC-9H: €1,095

COLORS: BLACK, SILVER

DIMENSIONS: 55 x 235 x 281 mm (H x W x D)

MSRP: €1,695

COLORS: BLACK, SILVER

DIMENSIONS: 55 x 235 x 281 mm (H x W x D)

MSRP: €795

COLORS: BLACK, SILVER

DIMENSIONS: 55 x 235 x 281 mm (H x W x D)

MSRP: €849 | COLORS: BLACK

DIMENSIONS: 74 x 330 x 253 mm (H x W x D)

MSRP: €1,895 | COLORS: SILVER, BLACK

DIMENSIONS: 59 x 215 x 383 mm (H x W x D)

MSRP: €899 | COLORS: SILVER, BLACK

DIMENSIONS: 55 x 235 x 281 mm (H x W x D)

MSRP: €379 | COLOR: DARK GREY

DIMENSIONS: 36 x 145 x 104 mm (H x W x D)

NuPrime DAC-9 & DAC-9H

A reference-class DAC designed for studio professionals, with AES and XLR outputs and decoding capability of PCM 384K & DSD256. With four digital and one analog stereo inputs, the DAC-9 is a full-featured DAC and preamp ideally suited for high-end systems.

The NuPrime DAC-9H is a reference-class DAC designed for studio professionals, with AES and XLR outputs and decoding capability of PCM 384K & DSD256. With four digital and one analog stereo inputs, the DAC-9H is a full-featured DAC and preamp. The DAC-9H differs from DAC-9 with additional balanced 4.4mm 'Pentaconn' socket and 3.5mm standard stereo headphone outputs.

NuPrime CDP-9

NuPrime CDP-9 integrates a high-end DAC, an ultra-high sampling rate converter (SRC), and a single-speed Red Book error-correcting CD Player. The SRC can up sample up to giga hertz frequency for the most accurate conversions. All digital inputs (coaxial, optical, USB, AES, CD) can be up- or down-converted from 16-bit/44.1kHz to 32-bit/384kHz, native DSD64 to DSD 256. Variable volume control for RCA, XLR and headphone outputs.

NuPrime CDT-8 Pro

NuPrime CDT-8 Pro is a highly accurate professional CD transport with powerful DSP-based decoder that provides all Red Book error-correction capabilities with master-clock control of the entire decoding system, thus lowering jitter significantly. The transport's single speed minimizes vibration and unbalanced discs. A selectable sampling rate converter (SRC) up samples the CD format to higher sampling rate with ultra-low jitter and distortion.

PURE AC-4

The Pure AC-4 is a high-end AC power conditioner that lowers the AC noise by more than 20dB. It comes with 4 Furutech FPX Rhodium plated AC sockets, has a trigger input and output, and a circuit breaker for surge protection. Only USA and EU AC sockets are available.

NuPrime CDT-10

The NuPrime CDT-10 is the ultimate CD transport with state of the art power supply and CD loader. Its powerful DSP-based decoder provides all Red Book error-correction capabilities with master-clock control of the entire decoding system, thus lowering jitter significantly. The transport's single speed minimizes vibration and unbalanced discs. A selectable sampling rate converter (SRC) up samples the CD format to higher sampling rate with ultra-low jitter and distortion.

NuPrime Omnia S1

The NuPrime Omnia S1 is purpose-built audio equipment that optimizes as a DLNA Server and Renderer (Streamer). You can choose to use any DLNA/UPnP compatible controller software with the S1 or utilize the native Android system for streaming apps.

NuPrime Omnia WR-1

Omnia WR-1 is a versatile multi-zone WiFi and Bluetooth aptX HD audio streamer capable of streaming music from online services, local storage, and other connected digital and analog sources. The free iOS and Android Apps allow you to easily control your smart music system.

MSRP: €499 | COLOR: DARK GREY
DIMENSIONS: 30 × 155 × 85 MM (H × W × D)

MSRP: €1,595 | COLOR: GREY
DIMENSIONS: 55 × 235 × 300 MM (H × W × D)

MSRP: €1,595 | COLOR: GREY
DIMENSIONS: 55 × 235 × 300 mm (H × W × D)

MSRP: €139 | COLOR: GREY
DIMENSIONS: 12 × 23 × 50 MM (H × W × D)

NuPrime Omnia SW-8

The Omnia SW-8 is a high-end 8-port gigabit Ethernet Network Switch that improves the network performance by reducing signal noise. By reducing circuit and power supply noise, and using a customized TCXO clock, Omnia SW8 delivers accurate network signal that ensures stable music data transmission.

NuPrime AMG PRA

The AMG PRA went beyond being a transparent preamp with 1M Ohm input impedance and the best analog source inputs. A user-selectable 4 stage “Active Low Frequency and Harmonic Gain” control gave it distinctive characteristics to enhance the speaker performance, a world-first in preamp design.

NuPrime AMG STA

The AMG STA comprises of several state-of-the-art innovations in power amp design. Its class-leading features include 1M Ohm input impedance, high instantaneous current for power delivery, 700kHz switching frequency, and Single-Ended Non-Negative Class A module coupled with Double Feedback Class D module for 300W mono amp power.

NuPrime Hi-mDAC

The Hi mDAC is a portable high-resolution DAC and headphone amp. Capable of PCM 32/384 and DSD 256 decoding, it is ultra-compact and low power consumption and connects easily to your computer or mobile device.
